NOTE. In order to assist bidders Mr. Elder will be glad to advise them in regard to the value of any lot in this sale.

**NOTE CAREFULLY OUR SALE DAYS. THURSDAY AND FRIDAY.**

**JULY 21st and 22nd.**

Don't make the mistake of thinking this present sale is to be on Friday and Saturday. The Sale days are Thursday and Friday, because we realize that on account of the lateness of the season many people want to get into the country early on Saturdays. Dealers from a distance are respectfully invited to attend, we will make every effort to make them comfortable at our sale and beg to assure them our auction room has good light, big windows and fine breezes all day long, all summer. Come and enjoy this mid-summer coin sale, the only one in years to be held as late as July 21st and 22nd. We held one sale in August, about 1916 and found it a success and well attended. New York City is regarded by many as a very good summer resort for out-of-town guests.

**PATRONIZE AMERICAN COIN DEALERS.**

The coin dealers of Europe are at present, as they have been for years, making a determined drive in America for business, and their enterprise is a very serious detriment to the prosperity of the American coin dealers. They are placing large advertisements in the United States and making every effort to get our business away from us. They often do have important things but they are not giving them away to anybody. American dealers' prices will always stand well in competition with those of Europe and American dealers also have and get many desirable things right here in America. Loyalty to America and Americans will of course lead collectors to support their own dealers and this is as it should be. It would be a great pity to think that on account of this sharp competition any American dealer finds it hard to make any money or a living, yet we hear complaints of the effects of this European enterprise, and cannot help feeling that a little more business should be turned in the direction of American coin dealers. We are not asking for "charity," but "business begins at home". We are going to emphasize this matter right along.

**CONDITIONS OF SALE.**

**Please Read Sale Terms Before Bidding.**

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per PIECE, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

**Be sure you bid on the lot you wish to buy.** We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

**Important Notice.** We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. Our records are final.

No priced catalogue will be furnished of this sale.

**ORDER OF SALE—Thursday, Lots 1 to 850 inclusive.**

**Friday, Lots 851 to End of Catalog.**

## A PUBLIC SALE OF COINS IN 1860.

Leonard & Co., at 45 Tremont Street, Boston, held a sale of coins on May 30th, 1860, just before the outbreak of the Civil War. It was a one-day affair of about 600 lots, and an advertised feature was a "Fine Polished Coin Cabinet." No sale terms were printed but we take it the coins were sold by the piece. The very first lot included two varieties of silver dollars of 1795, which brought \$1.25 each, and they were "Fine." Not a single dollar before 1844 sold for as much as \$2, but the latter date brought \$2.38. An 1855 "splendid proof set" brought \$13.25; a very good 1794 half dollar brought the princely figure of a dollar. A 1796, fine and excessively rare, fetched but \$14. A very fine 1793 Wreath cent, lettered edge realized \$6.05. How the 5c got added to the \$6 is more than one could understand. A 13 linked cent brought \$3. and it was fine. Two 1799s graced this sale, both were fine and sold for \$10 and \$5.50 respectively, the latter one slightly rubbed. The 1804, "remarkably fine for this rare date" sold for but \$3.00. Another, very good, brought \$2.62. Someone must have been bidding cents at a time in those days! In the list of cent I found one entry "Lot 214 ½—Dnmmy," sold for 5 cents. This lot of cents was stated to be the finest lot ever offered in Boston. In Half Cents the splendid proofs of 1836, 1841 and 1843 sold for \$5.50, \$4.50 and \$4.50 respectively. The proof 1852 brought only \$5.75. This was before the days of Crosby's Early Coins of America, so one pine tree was listed as having a "peculiar tree," which enabled it to bring \$2.75 in fine state, another "Oak shrub tree" brought \$2. One poor Pine Tree brought 50 cents. There were some fine pickings at bargain figures in Colonials. Our space won't permit a list of them. The Gobrechts sold cheap, an 1838 brought \$18, an 1852 \$18. Some of the Washington coins and tokens sold very well. This catalog contained one of the earliest lot of Store Cards ever offered at sale, including some very good ones, but they averaged from 12 to 15c apiece, a rather pitiful showing. On the whole we don't think the owners of the coins, nor the cataloguer of the same got very rich from the proceeds. The firm of Leonard & Co. still retains the name as auctioneers in Boston. The Boston Numismatic Society fur-

nished the scale of measurement. As one surveys the large number of catalogues of collections offered periodically from that early day of American Numismatics and as he feasts his eyes on the many precious gems offered he is lead to ask "where have these fine things in coins all gone to?" In our next we will describe some fo the Henry Cook and Woodward Sales. The prices seem ridiculous which these coins sold for, but don't forget that the money they sold for would be worth today, compounded at interest. We should say in most cases the sums paid would be worth in money today more than the difference between the prices paid then and now.

#### THE LARGE GEM STONE AND CURIO OFFERINGS.

Please give this catalog more than a once over for in it you will find a great variety of things besides coins and medals. Mr. Higgins' Collection of Ancient things and his Mexican and Toltec Collection is especially fine. Don't miss them. This sale contains three of the finest Babylonian cylinder seals that we have ever met with. They are "par excellence." sort of "ne plus ultras." We haven't offered so many lots of relics and gems in many a sale.

#### DON'T OVERLOOK THE MINTMARKS.

This sale has a couple of hundred fine Mint Marked Gold Coins. Get out your lists and compare please.

#### MOVING IS SOME AFFLICITION.

Moving household goods is bad, but moving a coin store and its fixtures is a darned sight worse, for before each move one has to gather together and assemble thousands of objects from coins to Chinese nuts, and from fossil sharks teeth to widow's mites. Let us hope this is to be our last move. Mr. Elder has had to paw over most of his stock personally and found a generous coating of New York dust had settled on his shelves and cupboards, necessitating hand-washing a dozen or more times per day. This was not exactly numismatic, bnt it was something connected with Numismatics. We wish none of our customers a similar experience. The first day the safes went out, the second day the coin shop, the third day the Aeoli-

an orchestrelle. Ye gods, some flitting! Now we feel something like the poor earthquake sufferers at Messina, or San Francisco, sitting among the ruins, hardly knowing where to turn. We like our new address, at No. 8-10 West 37th Street, it has a wonderful northern exposure with fine light for looking at coins at sales. Come to this one and try it out.

#### IN 1859 AND 1860.

Coin Sale Headlines on May 21st and 22nd, 1860, i. e. before the outbreak of the great Civil War, included in large type, "Medals, Store Cards, Presidential and Political Tokens." This sale was held by Cogan at his store, 48 North Tenth Street, Philadelphia. That was long before most of us were born. We see in the list of tokens a great many familiar names. Oh, what a fine lot of cents, went begging for bids, eight or ten 1793s; fine colonials, Birch cent, set of gold dollars from 1849 until that date, 1860, 12 sold for \$19, some of them were proofs. Historical medals sold very well, more appreciated then than now. The Jacksons, Harrisons, Clays and Van Burens were fine but not a quarter as complete as Mr. Elder's collections. I note in the Haines Sale in 1863 a California Octagonal Slug, struck in copper. Has anybody seen one?

---

#### WANTED, THE FRANKLIN MEDAL BY BALE.

Mr. Elder wants to buy the Brass token of Wright and Bale. Rx. their card, about size of the old cent. Kindly send a rubbing and name price.

---

#### THE NON DEPENDENS STATUS.

This unique piece was sold in 1862 in the Finotti sale and brought \$70, (Lot 1393). This sale had colonials to make your mouth water. Confederatio cents, George Clinton Cents, unique Washington pieces, New England Six pence and twenty or more Massachusetts silver coins, including "a Pine Tree Two Pence dated 1652," said to be unique. Clinton's cent brought only \$115, but that was the high spot for the sale. The Haines Sale contained a Washington collection almost unsurpassed for rarities, with the Half dollar.

**COINS WITH WINGS.**

Somebody stole from our salesroom three valuable and rare coins, catalogued for our recent auction sale. They included a 1799 cent in good condition, with a bold date; a proof eagle cent of 1856 and a very fine Byzantine concave Gold Solidus. If they are offered, or have already been offered, to any collector, he will at once know from this description that they are stolen coins and should be treated accordingly. We are practically certain we know who the thief is. His game is up so far as future stealing of our coins is concerned. The case is especially regrettable inasmuch as one of my valued helpers left her position on account of the embarrassment caused by the loss. She was of course entirely innocent in the matter, but probably did not want to assume further responsibility when one or two were so unfair and unprincipled as to help themselves to coins placed in her care. We intend to make it extremely difficult for pilferers of rare coins to sell them to collectors, and we will not hesitate to show up anyone we catch stealing coins.

---

**SEIZE THE OPPORTUNITY!**

The Elder Coin & Curio Corp'n. still possesses a large collection of Beads for Necklaces, both ancient and modern. This collection includes a marvelous variety of beads got some years ago from the American Bead Company when it was dissolved, including samples from all parts of the world, in glass, pottery, bone, ivory and other composition, in the widest variety of colorings, the climax being a wonderful variety of hand enameled and spun Venetian beads. These beads the firm intends to close out at your own price, some of them in our sales, giving you an unexampled opportunity of securing for either gifts or for your cabinet wonderful bead assortments. The first offering will be found in this sale. No bids will be refused. Beads have interested mankind since the time of the cave man and have a very strong appeal to both men and women. Get your beads now!

**COLLECTORS OF AMERICANA BLOCKED.**

The writer has often emphasized the tendency on the part of our collectors to stick strictly to the American series. This is a big mistake for several reasons, most of which we have often enumerated. But there is

another good reason for asking American collectors to turn to the very large and important fields of Ancient, Mediaeval and modern foreign coins and that is that Americana is simply not to be had, is not turning up in any numbers. The cent collectors are definitely blocked. No dealer has any large stock of these on hand, and the dealers who have a few cents find they cannot longer secure cents for what were once considered moderate prices. Some collectors will give as a reason for collecting only American coins that they are more readily sold than some foreign coins. What of it, if you cannot get new coins anywhere to sell or to keep? The series of early United States gold and silver are you might say off the market, so rare have these classes become. Collectors of rare Colonial coins find themselves in the same predicament. The artistic qualities of North American coins is only mediocre at the best, some of them are downright ugly. Their archaeologic interest is almost nihil because it only extends back to the seventeenth century. The educational advantages offered from their study is of very little more importance than the last, a few of the Colonial series excepted. There is really no good argument for the up-to-date and broad-gauged collector's sticking too closely to the American series. Date and die collecting merely for the sake of dates and dies we have discouraged from the beginning. The American series, while important to us, is not broadly speaking, of the utmost importance in general numismatics. Europeans are general collectors. Why shouldn't Americans be also?

#### SEND IN YOUR COLLECTIONS.

We will be busy during the summer cataloguing lots for our first sale in the Fall, and we urge you to send us your collections or duplicates, to be included in that sale. We will give the same our best attention.

---

#### SOME CHOICE ANCIENT ROMAN COINS.

Mr. Geo. F. Bauer has sent me some fine and choice Roman, and a few Greek pieces, for sale, and same will be found catalogued in this sale. Don't overlook them. Mr. Bauer collects only nice things and his coins should be appreciated. Some of the best Romans we have had in quite a while are in this sale.

**BARGAINS IN CHINESE AMBER AND JAPANESE CRYSTAL BEADS.**

A Long, hand-cut and faceted brilliant rock crystal bead necklace, length 40 inches or longer, took several days to make, as new, \$12. Worth \$25 to \$30. Formerly sold for \$60 to \$75. Chinese Rich brown Amber Beads, round graduated, 30 inch string, value \$15 to \$20, only \$7. A snap.

---

**WORKS ON THE POLITICAL TOKENS.**

If Mr. Elder can arrange his affairs to get time to do so he will take up the matter of the illustrated books on the tokens of Andrew Jackson, Henry Clay, W. H. Harrison, and M. Van Buren, also the medals of B. Franklin, of which worthies his collections are by all odds the most complete in existence. The illustrations will make these works of far greater utility than the Book by Mr. Low on Hard Times Tokens, because Mr. Low illustrated very few of his tokens, while our books will contain as complete a set of illustrations as it is possible to get with a few of the early mulings etc. lost track of except in old sale catalogs. The working up of such books is a man's job and will take much time and research. There are others who have a better opportunity of doing the work than the editor, with his many duties in his business. It is predicted that when these books do come out, little tokens which have been selling for almost nothing are going to bring prices to astonish collectors. As these tokens are the most important of the times when issued, it goes without saying they will get a far better reception, and far more appreciation, than at present. Mr. Elder will still entertain selling all of the above collections, but as he has added from time to time anything new the price has not decreased and they will not be sacrificed or "given away" in any case. No books on the subject can ever be completed without his collections and the compilers will sooner or later be obliged to come to him. Just for a hint, he has over 200 of W. H. Harrison alone, a few of these duplicates. Mr. Elder would be glad for any comments as to the reception such works would have, giving some ideas as to the number of subscribers he might expect to such works. If the reception is favorable, he will earlier arrange to take up the matter of their compilation and publication.

**CENTENNIAL COIN AND CURIOSITY SALES.**

The late Mr. Jno. W. Haseltine held a most interesting series of sales devoted exclusively to the Centennial in Philadelphia in 1876. These sales contained all manner of coins, paper money, curios, as well as rare and fine old newspapers and autographs of the Signers and Revolutionary Generals and statesmen. Unique coins passed through his hands, some of which have never appeared since at either private or public sale. Woodward seems to have dispensed more medals and tokens than Haseltine.

**THE MICKLEY SALE, HELD IN 1867.**

Woodward's most important sale undoubtedly was the Mickley, held in 1867. I note proof sets from 1827 to 1866, the year before the sale. As Mr. Mickley lived near the U. S. Mint and commenced to collect early, he was in position to get coins from people who got them as early as 1799 direct from the mint. Think of such an opportunity! His cents were magnificent and it is understood his choice 1799 cent was got from the person who secured it direct from the mint. It sold for only \$32. The very fine 1804 sold for \$10, while another, almost as fine fetched \$6.50. What a chance! The Disme, in silver, with only two or three known in this metal, brought \$39. The Birch cent sold for \$155, one of the sale's highest prices. The Colonials were splendid indeed; nothing like them had ever been offered before and they compare favorably with Parmelee's. Among them was the Lord Baltimore penny, sold for \$370. The Unique Philadelphia Shilling brought only \$30. What a fortune lay in these very interesting offerings and where are all these gems now? Over 300 different lots of Colonials alone in this famous sale! The "Mickley English Provincial Tokens in Silver, Copper and Other Metals" were offered privately. Probably no other American coin sale has ever contained more unique or excessively rare things as this sale, excepting possibly the famous Parmelee, although we have no desire to minimize the latter's importance, as on account of its gold offerings it likely have been just as wonderful as Mickleys or maybe a little more so. Mr. Proskey made the catalogue of Parmelee's. Likely many of the gems in these early sales of 50 to 65 years ago have changed hands each a dozen or more times since. Doubtless many others are lost to public gaze, mislaid or tucked away by owners who have no knowledge of their value or importance, and are not apt to have in the future, being ignorant of numismatics.
